

Get Organised

Whatever it is you need to carry the Pick-Pocket can be configured to your own needs.

The Pick-Pocket was originally designed as a result of talking to nurses working in various areas of healthcare. The purpose of the Pick-Pocket is to carry the 'tools of trade' that all nurses require in their daily roles. These tools may include such items as pens, pencils, scissors, IV tape, disposable gloves, keys, hand-over sheets, money etc.

The word has spread and we have had requests from other industries. Vet nurses, teachers, dog groomers and more are realising the advantages of the Pick-Pocket. The versatility of the Pick-Pocket offers benefits to any industry where organisation is a must!

The Pick-Pocket has an adjustable belt system that will fit most waist sizes.

Time Savings

The Pick-Pocket stops the need to travel extra distance by having most of your tools on hand. Keep pens, pencils, scissors and tape in easily accessible compartments. No longer will you incur ink stains and pen marks on your clothes or misplace important items. The convenient key ring attachment means no more searching for keys. The Pick-Pocket has a secure zip compartment for your valuables. Also perfect for carrying your mobile phone or PDA.

Safe

No more pens or scissors dangling around your neck or jiggling around in your pockets. All of these items can be safely stored in the Pick-Pocket. The Pick-Pocket can be slipped around from your hip to your bum in one quick movement.

The Pick-Pocket is designed to allow easy access with just one hand.

Compact

The Pick-Pocket measures 20cm x 15cm and sits flat on your waist. You won't even know you're wearing it. It's the true portable pocket.

Our Guarantee

Thousands of people around Australia have already purchased the Pick-Pocket, and we have received great feedback. However, if you are not completely satisfied with your Pick-Pocket we offer a full refund or replacement on return of the product. You've got absolutely nothing to lose!

Pick-Pocket Order Form
